Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 April 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 1-13,13,14,15 been renumbered 1-13,14,15,16 respectively.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 8-13,15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8-14 of U.S. Patent No. 6,404,567. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed invention as claimed in claims 8-13,15 is substantially the same as that in claims 8-14 of the '567 patent. All elements claimed in claims 8-13,15 in the present patent application are included in claims 8-14 of the '567 patent. These elements in the present application perform the same function as those of the elements in claims 8-14 of the '567 patent. The patent claim 9

Art Unit: 2873

directs to the bonder further comprising a chuck heating system to facilitate solder bonding of the optical component to the optical bench. Thus the new limitations "solder bond" added into claim 8 are already included in the optical component manipulation system of claims 8-14 of the '567 patent. Thus, the invention claimed in claims 8-13,15 is substantially identical to that in claims 8-14 of the '567 patent.

4. Claims 1-7,16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7,15 of U.S. Patent No. 6,404,567. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed invention as claimed in claims 1-7,16 is substantially the same as that in claims 1-7,15 of the '567 patent. All elements claimed in claims 1-7,16 in the present patent application are included in claims 1-7,15 of the '567 patent. These elements in the present application perform the same function as those of the elements in claims 1-7,15 of the '567 patent. Although patent claims 1-7,15 do not include the new limitations "solder" added as now claimed in claims 1-7,16 of the present application, the attachment of the optical element to the optical bench is nothing more than solder attachment because the specification disclosed solder attachment or solder bonding. Thus solder attachment is inherently included in the attachment of the optical component to the optical bench in the patent claims 1-7,15. Therefore, the invention claimed in claims 1-7,16 is substantially identical to that in claims 1-7,15 of the '567 patent.

Response to Arguments

5. Applicant's arguments with respect to claims 1-12,14-16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Art Unit: 2873

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
